Short Biography

Trained at Egerton as an Agriculture teacher for Biology and Agriculture with a higher Diploma, later joined Kenyatta University and pursued a Bed degree in Botany and Zoology and in the same institution pursued my MSc degree in Agricultural Entomology Currently registered at University of Embu for my PhD in Agricultural Resource Management on Pearl millet post-harvest practices. I have taught in various secondary schools and at Kenya Science Teachers College until it became a campus of Nairobi University. My teaching experience is over 30 yrs. and I have supervised students on teaching practice and various levels of student projects.

Research Interests:

Dry land Agriculture on food security and water harvesting.

Publications in Journals:

In the process

Presentation of Papers at Academic and Professional Conferences:

I have attended two conferences with RUFORUM, at Entebbe, another at Israel and most recent at India where I presented my PhD concept paper.

Books/Book Chapters Published: There are two of my tertiary books in a draft form so far,

- i) Principles of animal production
- ii) Animal nutrition and feeding
